### United Planet presents next generation portal software at the Gartner Portals, Content & Collaboration Summit 2010 in London

London, 18 August 2010. United Planet, ([www.unitedplanet.com](http://www.unitedplanet.com)), one of the leading developers of Enterprise Portal software in Europe, is pleased to announce its sponsorship of the Gartner Portals, Content & Collaboration Summit 2010, taking place on the 15<sup>th</sup> and 16<sup>th</sup> of September 2010 in London, United Kingdom.

“The Gartner PCC Summit showcases cutting-edge developments in the portal and collaboration sector and we are delighted to be part of this well-respected event this year,” said Axel Wessendorf, managing director at United Planet. “Being the leading vendor in the enterprise portal market in the German speaking part of Europe for many years, we are now experiencing increased interest in Intrexx in other parts of the world. At the Gartner PCC Summit we will demonstrate the benefits of our portal software to an international audience,” he added.

During the two-day event, United Planet will show how companies can use the Intrexx portal platform to create Web applications without the need for any programming and how an Intrexx Enterprise Portal supports collaboration and real-time access to important business information at any time and any place.

In a “Demo Theatre” presentation at the second day of the event, United Planet will demonstrate how Intrexx’ new mobile capability enables companies to make their business data and web applications accessible via smartphones and tablet PCs. Even data from external systems - such as SAP - can be made ‘mobile’ with just a few clicks of the mouse, opening up new opportunities for businesses.

### About United Planet

United Planet is one of the leading developers of Enterprise Portal software in Europe. Its Java based, standard software Intrexx enables companies to create Enterprise Portals, Intranets and Web Applications cost effectively, without the need for programming by using 'drag and drop' technology and pre-created solutions for quality management, document management and process management to optimise internal workflow. Intrexx runs on Windows as well as on Linux and Sun Solaris, and incorporates several Business Adapters to ensure that third-party data from Lotus Notes and other ERP solutions can be easily integrated in the Intrexx Portal. A special Business Adapter for MS Office also makes it possible to integrate and edit Microsoft Office Documents without the need for Microsoft Office SharePoint Server (MOSS). United Planet is headquartered in Freiburg, Germany and also has offices in Windsor. The company is supported by over 100 Business Partners worldwide.
