

United Planet Launches Training Academy in the UK

Online Community Increases Support Network for SMEs

London, 17 October 2008. United Planet (www.unitedplanet.com), one of the leading developers of Enterprise Portal software in Europe, has today announced the opening of a Training Academy in the UK. Already a huge success in Germany, Switzerland and the Czech Republic, the Academy will be based at the company's UK offices in Windsor and will offer a series of seminars to help medium sized businesses maximise the potential of their investment in Intrexx Xtreme. The company's online community, the Intrexx Forum, is now also available in English to provide ongoing technical support during implementation.

Commenting on the launch, Alexander Marsch, managing director, United Planet Limited, said: "The Academy will provide new and existing customers with access to our expert consultants who have amassed over 10 years experience in web application and portal development. The seminars will help our customers to increase the speed and accuracy of portal creation, and therefore deliver a much faster return on investment (ROI) for them. Our customers are committed to improving workflow and document management through the use of our software and we are dedicated to helping them achieve this."

The United Planet Academy will also provide customers with the opportunity to learn from the experience of others as attendees will be able to discuss portal development, intranet development and web application work with people from other business sectors.

Press Release, No. 4-2008

About United Planet

United Planet is one of the leading developers of Enterprise Portals in Europe. Its Java based, standard software, Intrexx Xtreme, enables companies to create out-of-the-box Enterprise Portals, Intranets and Web Applications cost effectively, without the need for programming by using 'drag and drop' technology and pre-created solutions for quality management, document management and process management to optimise internal workflow. Intrexx Xtreme runs on Windows as well as on Linux and Sun Solaris, and incorporates several Business Adapters to ensure that third-party data from Microsoft, Lotus Notes and other ERP solutions can be easily integrated in the Intrexx Portal. United Planet is headquartered in Germany and also has offices in Windsor in the UK. The company is supported by over 100 Business Partners worldwide.

More detailed information about United Planet and Intrexx Xtreme portal software can be found at: www.intrexx.com.
